

Relationship of draft goals

Test scenarios

- A. Base case (Metro Vision 2035)
- B. What if the region achieved the Urban Centers goal by 2035?
 - Implications for the related goals
- C. What if the region achieved the VMT reduction goal?
 - Implications for the GHG reduction goal

Results

	Draft goal	A. Base Case	B. More growth in urban centers	C. Achieve VMT target
Water use, change in per capita municipal and industrial water use from 2005 levels	Reduce 13.5% by 2030	2.2% decrease	4.4% decrease	N/A
Mode share, percent of trips to work by single-occupant vehicles	Achieve 65% by 2035	80.2%	79.2%	N/A
VMT, change in regional per capita VMT from 2005 levels	Reduce 10% by 2035	3.8% increase	1.2% decrease	10% decrease
Transportation GHG emissions, change in annual per capita emissions from 2005 levels	Reduce 60% by 2035	14% to 41% decrease	17% to 44% decrease	26% to 50% decrease
